Grant Heather- Vehicle for Hire Dept- City of Winnipeg

"Changing the conversation & perspective on the use of Vehicles for Hire by older adults & the role of VFH in safely transporting older adults during COVID"

This space is intended to give community professionals the opportunity to connect, collaborate & support one another in understanding & addressing transportation issues for Older Adults in Manitoba. To create a sense of community, we will recommend the use of cameras throughout the session & we will not be recording these sessions to create a safe and open sharing environment for everyone.
